Chesapeake Utilities Corporation's Energy Efficiency Rider Rate

Pursuant to the Energy Efficiency recovery mechanism approved by the Delaware Public Service Commission ("Commission") in PSC Order No. 10441 on May 1, 2024 in PSC Docket No. 23-1175, Chesapeake Utilities Corporation ("Chesapeake") has filed with the Commission an application proposing a change to the Energy Efficiency Rider ("EER") surcharge of \$0.0069 per Ccf to \$0.0109 per Ccf to be effective with service rendered on and after May 1, 2025. As a result of this proposed change, an average residential heating customer using 700 Ccf per year will

experience an annual increase of approximately 0.25%, or \$2.82. For a typical residential heating customer using 120 Ccf of gas per month, the proposed EER rate will increase approximately 0.284% or \$0.49 their total monthly bill.

By Order No. 10690 dated April 23, 2025, the Commission approved the proposed rates to become effective with usage on and after May 1, 2025, with proration, subject to modification and refund after an evidentiary hearing.
